West Michigan Environmental Action Council

WMEAC has been West Michigan's resource for environmental education and advocacy since 1968. Founded by a diverse group of concerned citizens and organizational stakeholders, WMEAC is uniquely positioned to respond to emerging issues and new threats to West Michigan's natural and human ecologies, strategically focused on building sustainable communities and protecting water resources.

WMEAC does workshops, including building rain barrels, teaches about the watershed, and does Grand River cleanup.
